Sections roll up for compact storage

Access where 2 sections meet.
Solid and stainless security hooks

- Dark green and black colours permit the best transparence.
- Strong, tight mesh doesn't permit children to climb and toys to pass through or under.
- The mesh will not rip, rot, fade or tear.

Every effort is made to produce the safest fence. However the impregnability of the fence cannot be guaranteed. This fence is not a substitute for parental supervision. No child should be left unattended around the pool. You have to supervise your children at all times
